

Understanding Mobile Solutions

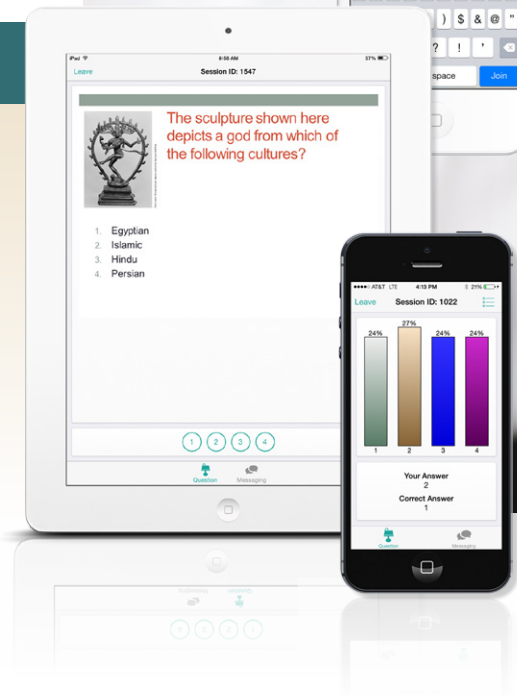

Turning Technologies' ResponseWare is a mobile learning solution that provides learners the opportunity to use any web-enabled device as a virtual ResponseCard keypad. ResponseWare allows users to easily respond via an internet connection and immediately transfers selections to TurningPoint polling software.

Respond With:

- iOS or Android™ devices
- Laptops or desktops
- Any web-enabled device!

Respond to Multiple Question Types:

- Multiple Choice
- Alphanumeric
- Multiple Response
- Essay

Simple Setup for Superior Results

ResponseWare does not require special software or complex applications to install. Begin polling immediately and respond with ease for a more interactive learning experience. Participants can visit ResponseWare.com on any browser or download apps available at the Apple® App Store or at Google Play™.

Integrate and Innovate

Our solution seamlessly combines ResponseWare and ResponseCards for use in the same environment. This supports locations with varying levels of internet connectivity, and accommodates learners who do not have access to a web-enabled device.

ResponseWare® New Features

- Enhanced user interface available through new apps
- Increased security properly safeguards student data
- Decreased bandwidth improves response transmissions
